Kardex Remstar® is a wholly owned trademark of Kardex AG of Switzerland. Robey Controls does not own or make any claims to owning this trademark.

The screenshots illustrate the following features:

- Part Management:** Screens for adding, editing, and deleting parts, showing fields for Part Number, Description, Location, and Stock.
- Stock Control:** Displays current stock levels and transaction quantities for specific parts.
- Location Management:** Shows a grid of locations for a part, with status indicators (Ready, Error, etc.).
- Reporting:** A detailed report showing part numbers, descriptions, locations, and stock quantities, with options for printing and filtering.
- System Status:** Displays the status of various devices and carriers, including error messages and ready indicators.
- Part Images:** Shows a visual representation of a part (e.g., a safety sensor) with an 'Image Off' button.
